Interestingly, Wear OS by Google which was formerly known as Android wear is having a market tie with Samsung's Tizen. Although, Wear OS has been leading by a slight margin increase in the past weeks.

- [Shepherd Tricks You Into Reading Something Instead Of Scrolling Though Facebook](#) [6]

The simple web app lets you create a home menu icon for your phone that looks like it's for Twitter or Facebook. The twist: a certain percentage of the time it opens Pocket or Kindle instead of your social media addiction. The idea is to prompt you to read something substantial instead of just scrolling through your feeds.
