When it comes to new laptops for the summer of 2018 that are Linux-friendly, the latest-generation Dell XPS 13 with Intel Kabylake-R processor ranks high on that list. Recent in upgrading my main production workstation, I decided to go with the Dell XPS 13 9370 while using Fedora Workstation 28 and it's been a phenomenal combination. Here are my thoughts on the current Dell XPS 13 as well as some benchmarks and other information.
