As many will have no doubt noticed, there has been an artwork contest running for Mageia 7, and then lots of voting in the community to choose the artwork! This has all finally concluded and we will start to integrate the new artwork into Mageia 7 to get it ready for release.

Before we get to the new artwork, firstly, a huge thank you to everyone that submitting artwork, and also those that took part in all of the voting, there was a great turnout and the results were really close, an indication of the excellence of the work that our community has put forward.

Firstly, the screensavers for Mageia 7 were, as always a tour around the world and showed some excellent photography talent. There seemed to be a distinct liking for rivers this time around.
