

# Latest Red Hat and Microsoft Openwashing

By *Roy Schestowitz*

Created 16/05/2019 - 5:57pm

Submitted by Roy Schestowitz on Thursday 16th of May 2019 05:57:48 PM Filed under [Microsoft](#) [1]

- [Contribute to a new playbook for open-minded educators](#) [2] [Ed: Red Hat is openwashing again today]
- [Querying 10 years of GitHub data with GHTorrent and Libraries.io](#) [3] [Ed: Red Hat should oppose this rather than promote the illusion that all FOSS is now reducible to what Microsoft owns and controls (even private code)]
- [Microsoft Open Sources Bing Search's Most Advanced Search Algorithm](#) [4] [Ed: Many Microsoft boosters are openwashing Bing right now. It's [surveillance and censorship on steroids](#) [5], so much so that even China allows its use.]
- [10 Visual Studio Code Extensions for Programmers](#) [6] [Ed: Stop promoting proprietary software, Visual Studio, with Microsoft back doors and surveillance (and yes, "Code" is just openwashing free bait, it's a trap set up by Microsoft)]
