- [Wine 4.18 Released](#) [2]

The Wine development release 4.18 is now available.

- [Please look at this Wine graph showing a 4.18 increase](#) [3]

I decant believe that title! The latest and greatest code from the Wine hackers has been sweetened to perfection with the Wine 4.18 development release now available.

- [Wine 4.18 Released With Many Bug Fixes, Some Feature Work](#) [4]

While three weeks have passed since the previous Wine development release compared to the usual two week cadence, Wine 4.18 is out today and isn't too busy on the feature front but there are more than three dozen bug fixes.

The delay and Wine 4.18 not being particularly big appear to be due to WineConf taking place last week in Toronto keeping many of the developers busy. New Wine 4.18 feature work includes implementing more VBScript functions, cleanups/improvements to the Apple macOS Quartz code, and fixes for test case failures.
