

Lots of Microsoft Openwashing This Past Week

By *Roy Schestowitz*

Created 17/11/2019 - 3:32pm

Submitted by Roy Schestowitz on Sunday 17th of November 2019 03:32:53 PM Filed under [Microsoft](#) [1]

- [GitHub launches Security Lab to protect open source code](#) [2] [Ed: Too much of the news portrays more proprietary software from Microsoft's GitHub as "open source" something. Misreporting.]
- [GitHub launches 'Security Lab' to help secure open source ecosystem](#) [3]
- [GitHub launches Security Lab to spot vulnerabilities in open-source code](#) [4]
- [GitHub makes CodeQL free for research and open source](#) [5] [Ed: Openwashing of code from Semmler is now used to seduce developers into a proprietary trap of Microsoft which does surveillance and censorship of FOSS]
- [GitHub Finally Has Its Own iOS and Android Apps](#) [6] [Ed: Of course the Microsoft GitHub 'apps' are proprietary software just like everything at GitHub.]
- [Open Source Has Won Says GitHub CEO, Amid ICE Controversy](#) [7] [Ed: GitHub is proprietary software and this CEO is a mole who worked for Microsoft and then crossed over to attack FOSS from within, then came back to Microsoft. When he says "won" he means "Microsoft controls it".]
- [GitHub: We're storing your open-source code in the frozen Arctic for 1,000 years](#) [8] [Ed: CBS tabloid ZDNet spreads

Microsoft propaganda because Microsoft won't exist for 1000 years and human kind too might not last this long. Journalism these days is PR and lies.]

•

[GitHub launches Arctic Code Vault to preserve open source software for 1,000 years](#) [9] [Ed: People deserve mocking for writing this "Arctic Code Vault" nonsense, right from Microsoft's script. Microsoft won't last 1,000 years (no company does) and it's just a distraction from GitHub's help to ICE buildups.]

•

[GitHub will store all of its public open source code in an Arctic vault](#) [10] [Ed: GitHub's "Arctic vault" nonsense is so laughable [for a lot of reasons](#) [11]]

•

[Open Source Code Will Survive the Apocalypse in an Arctic Cave](#) [12]

•

[Microsoft Is Hiding Source Code in an Apocalypse-Proof Cave](#) [13]

•

[Microsoft Is Hiding Open Source Code in an Apocalypse-Proof Storage Facility](#) [14]

•

[Microsoft is investing in apocalypse-proofing the world's code](#) [15]

•

[At Universe, GitHub rolls out Actions, Packages and more open-source goodies](#) [16] [Ed: GitHub staff is fleeing (for many reasons), so Microsoft does anything it can to distract from the evil it made GitHub become to appease Donald Trump and the Pentagon]

•

[Sonatype Delivers Premium Open Source Controls to GitHub Users](#) [17] [Ed: Sonatype works for Microsoft's proprietary software surveillance network. Everyone knows GitHub is proprietary software, right? Just like CommunityBridge -- the thing [Microsoft pays the Linux Foundation to run for the benefit of Microsoft lock-in](#) [18].]

•

[Sonatype Delivers Premium Open Source Controls to GitHub Users](#) [19] [Ed: Sonatype works serve you unless you're a slave of Microsoft (giving all the code to them while censored and spies on)]

- [Top 10 Fastest-Growing Open Source Projects By Github Contributors](#) [20] [Ed: Analytics India Magazine thinks FOSS projects that are not 100% controlled by Microsoft do not exist, do not count, should be ignored]
- [GitHub State of the Octoverse 2019 - Python popular, data science apps on the rise](#) [21] [Ed: Microsoft tries hard to come across as 'the' spokesperson of FOSS [22]]
- [Q&A: Inside Microsoft's embrace of GitHub's strong open-source community](#) [23] [Ed: This 'article' is 100% Microsoft ad complete with all the 'right' Microsoft lies. How much does Microsoft pay this site?]
- [Allianz & Microsoft partner on open-source insurance platform](#) [24] [Ed: This has nothing to do with "open source". It's 100% Microsoft openwashing.]
- [Marvell ThunderX2 chosen for Microsoft's open-source cloud design](#) [25] [Ed: Openwashing of Microsoft surveillance 'cloud']

[Microsoft](#)
