Among all the Linux distros out there, openSUSE and Ubuntu are two of the bests. Both of them are free and open-source, leveraging the best features Linux has to offer. However, each has its spice.

In this article, we'll be having a look at a detailed comparison between openSUSE and Ubuntu. The goal isn't to declare which one is better than the other. That's up to the user to decide. Instead, let me shed light on points you should consider when choosing between Ubuntu and openSUSE.

Let's get started!
