- [First LibrePlanet 2020 keynote announcement: Internet Archive founder Brewster Kahle](#)[3]

The Free Software Foundation (FSF) today announced Brewster Kahle as its first keynote speaker for LibrePlanet 2020. The annual technology and social justice conference will be held in the Boston area on March 14 and 15, 2020, with the theme "Free the Future."

- [Call for FOSDEM 2020 Booth volunteers](#) [4]

This year we've got one of the high-traffic locations, on the ground floor where Free Software Foundation Europe set up last year, right next to the stairway to *all* the dev rooms. So we're looking for volunteers to come and talk about both Perl and Raku at FOSDEM 2020 in Brussels. If I haven't already talked to you, please email me at drferr [at] pobox (dot) com and give me an idea of your availability and what you'd want to do. We've made arrangements for the usual booth swag, and will have pamphlets to hand out and books to sell on both Raku and Perl.
