First Beta of Krita 4.3.0 Released

By *Roy Schestowitz*

Created *04/05/2020 - 4:25pm*

Submitted by Roy Schestowitz on Monday 4th of May 2020 04:25:08 PM Filed under [KDE](#) [1]

Krita 4.3.0 will be the next full feature release of Krita. We've worked for a year on this new version of Krita, focusing especially on stability and performance. Many tool, like freehand painting and selections are faster than ever. And there is a bunch of fun new features, as well, many contributed by volunteers from all over the world.
