Wrapland redone

By *Roy Schestowitz*

Created 25/05/2020 - 1:43pm

Submitted by Roy Schestowitz on Monday 25th of May 2020 01:43:32 PM Filed under [Graphics/Benchmarks](#) [1] [KDE](#) [2]

The KWinFT project with its two major open source offerings KWinFT and Wrapland was announced one month ago. This made quite some headlines back then but I decided to keep it down afterwards and push the project silently forward on a technical side.

Now I am pleased to announce the release of a beta version for the next stable release 5.19 in two weeks. The highlights of this release are a complete redesign of Wrapland's server library and two more projects joining KWinFT.
