# Tim Lauridsen: Pimp your Gtk application with CSS

By *Roy Schestowitz*

Created 22/07/2021 - 3:43pm

Submitted by Roy Schestowitz on Thursday 22nd of July 2021 03:43:55 PM Filed under [Development](#) [1] [GNOME](#) [2]

GTK is a powerful framework for building GUI application in Linux and other OSes. It is written in C, but there is binding for many programming languages like Python.

GTK uses a subset of CSS for styling your application. I have made a little Python Demo Application to show how to pimp your application like a pimp.
