- [Today Valve confirmed the Steam Deck's official LAUNCH DATE \(plus OTHER Deck news\) - Invidious](#) [3]

Yes, that's right. Valve confirmed the Steam Deck's release date. It's February 25th, 2022. That's just under a month away from the release of this video.

- [FLOSS Weekly 665: The Open Source Initiative - Stefano Maffulli, OSI](#) [4]

Stefano Maffulli joins Jonathan Bennett and Simon Phipps on this episode of FLOSS Weekly. Phipps does double duty as guest as well as co-host. It's all about the Open Source Initiative, the custodians of what exactly counts as Open Source. That may seem like a solved problem, but cloud computing, machine learning, and Standard Essential Patents present new challenges to face. We talk about these topics and more, so check it out!

- [Does The FSF Really Respect Your Freedom? - Invidious](#) [5]

There seem to be some legitimate concerns with how the FSF approaches microcode and firmware running on a secondary processor which does not respect your freedom and in many ways puts users in danger.

- [NO CLEVO? Starlabs Starbook Mk. V review - Invidious](#) [6]

We've got a very special laptop running Linux out of the box: the StarLabs Starbook Mark 5. This one is pretty different from virtually every other manufacturer: it's NOT using a clevo or tongfang chassis, it's custom designed, aluminium, and it's a pretty amazing ultrabook that really deserves an in depth look.
