Submitted by srlinuxx on Thursday 13th of November 2008 02:11:38 AM Filed under [Moz/FF](#) [1]

Mozilla has released Firefox 3.0.4, the fourth update to Firefox 3, released last June.

As usual, this release brings several stability and performance bug fixes, as well as, according to the [release notes](#) [2], some security patches. Details of the security vulnerabilities have not been disclosed as of this post.
