I'm now an avid Firefox user. It took me a long time to give up my treasured Maxthon, an Internet Explorer shell that I truly loved. Here are a few of the cooler Firefox add-ons I'm using. Give them a whirl and let me know what you think.

1. AutoPager does the clicking for you and automatically scrolls through those annoying multiple-page sites?way convenient.
2. If you're an advanced user with lots of extensions, you'll definitely want to install MR Tech Toolkit; it's the tool for installing and managing extensions, add-ons and themes.
