Due to wide spread issues with 1.0-7167, NVIDIA has quickly released 1.0-7174. According to the changelog some highlights include:

- Fixed performance problem when using AGPGART.
- Fixed support for GeForce2 Integrated GPUs.
- Fixed a workstation graphics stability problem.
- Improved XRandR rotation support.
- Fixed installation problems on some Linux 2.6 kernels.
- Updated documentation. Please see the text README file.

All archs available [here](#) [2].
