Well, the ramp-up for KDE SC 4.6 has begun now, with soft freezes taking effect yesterday and the first beta due in about 1 week.

So... we have decided that there is no point to putting any more effort into the long-awaited KDEPIM 4.5.

99.9% of the KDEPIM team's effort will go into the 4.6 release.

0.1% effort remains for a probable KDEPIM 4.4.8 at the end of this month.

KDEPIM 4.6 !
