Music made with Gentoo, and some modding

By *srlinuxx*

Submitted by srlinuxx on Sunday 29th of May 2011 11:00:04 PM Filed under [Gentoo](#) [1] [Software](#) [2]

Tonight's experiment, this time with mlr + the smyth rhodes samples from another track I created. Performed on a monome 128, in Gentoo Linux.

Instead of the Ubuntu laptop, I used my Gentoo desktop to sketch this out. It actually runs the Max/MSP patches (within Wine), such as mlr, better than Ubuntu. I don't have much in the way of processing or FX software installed yet, so this is an extremely minimal arrangement; just a single Calf reverb effect and some fadeout postproduction in Ardour. I'm steadily writing ebuilds and adding them to my overlay.
