Please introduce yourself!

My name is Manu, I am 21 years old and I live in India. I am currently in my final year of graduation in computer science. My native language is Hindi. During my free time, I participate in openSUSE Project and hang out with friends, watch movies and do other stuff.

When and why did you start using openSUSE/SUSE Linux?

I started using openSUSE around 2 years back. I started to use it out of fascination and to learn about Linux as much as I can. Earlier I used Ubuntu and Fedora too but openSUSE caught my attention. I realized it to be a wonderful operating system that furnished my needs.
