Whether it's browser improvements, new web standards or just design trends, we spend a fair amount of time talking about the future of the web here at Webmonkey.

Sometimes though it's good to take a step back and remember that no one knows what the future of the web will really look like. In fact most predictions turn out to be utterly wrong.

In that spirit, here's a 1995 piece from MTV on this crazy thing called the Internet.
