The much-awaited Beta release of openSUSE 12.1 is here! And just in time for your weekend Beta Pizza Party. So fire up thaDownload openSUSE 12.1 Beta now!t oven and warm up that download manager because its time to get ready for the latest awesome openSUSE on your computer.

If you?ve been following us, you know this release was originally called Milestone 6. However, the release team and its testers agreed this round of testing showed Milestone 6 to be so stable and ready for general testing, they decided to call it Beta. And that means that if you?ve been thinking about taking a pre-release of 12.1 for a spin before our final release in November, there?s no time like the present.
