We've had browser wars back when Netscape was still the king. Today, it's Internet Explorer, Firefox, Chrome, Safari, and Opera all battling it out to see who's top dog. There are plenty of different categories where they are being compared, such as speed, memory efficiency, functionality/features, and more.

However, sometimes we forget that there are still some other browsers than the Big 5. Today, we'll be looking at one of the fastest and most lightweight browsers outside of the Big 5.
