Lets be honest, the title alone sets the tone of this post, so please no comments stating i'm an elitist snob, because this i'm am keenly aware of. However a touch of honesty now and again does tend to go a long way.

So what's the problem? Well there are more than one and they grind me down on a daily basis, so it's time to air them here and these are all tech issues..

[So lets start with...](#) [2]
