Submitted by srlinuxx on Thursday 1st of August 2013 11:35:42 PM Filed under [KDE](#) [1]

I just sent this to a KDE mailing list. And it's true. The KDE Community's software is:

- * community controlled, no US-controlled company can introduce ?patriotic? changes
- * majority of developers are based outside the US, many in Europe and India (@devs: please provide your data for commit digest, 20 % unknown is too much)
- * our legal entity (KDE e.V.) is Germany based
