

OggCamp 2013 ? Free software, free culture & mass surveillance

By *Rianne Schestowitz*

Created 05/01/2014 - 4:43pm

Submitted by Rianne Schestowitz on Sunday 5th of January 2014 04:43:59 PM Filed under [Linux](#) [1] [OSS](#) [2]

Since the first issue of Linux User appeared at the end of the last century, the free software community has grown and evolved ? bringing in open data, free culture, open hardware ? and the nature of its events has changed. The Linux Expo, and Linux User Expo, events of the past were huge corporate affairs, but the coffers of the big companies enabled the .ORG Village to run alongside, providing space for dozens of FOSS projects and organisations.
