Submitted by Rianne Schestowitz on Saturday 1st of February 2014 01:55:24 AM Filed under [OSS](#) [1]

Open source software is creating 'tried-and-tested' solutions addressing interoperability, portability and security, writes ETSI, the European Telecommunications Standards Institute, in its December 2013 report on standards for cloud computing. Future specifications and standards may derive from open source projects, the standardisation organisation suggests.
