Hook up a display and power source and the Cloud Connect will load up an Android 4.1 Jelly Bean-based operating system. It's hardly the first Android TV stick to hit the streets. But it's one of the first from a major PC maker ? and certainly the first to feature tight integration with Dell's virtualization and cloud software including Wyse Cloud Client Manager, support for VMWare, Citrix and Microsoft virtualization solutions, and PocketCloud personal cloud services.
