Linus Torvalds, the man behind the wonderful project Linux and Git was offered job by Steve Jobs, the founder of Apple Inc. Torvalds never met Bill Gates, the founder of Microsoft but he met Jobs in the year 2000 when he was working with Transmeta corporation, an American fabless semiconductor company. Jobs invited Torvalds to Cupertino Camps of Apple. Torvalds was offered thick salary and remarkable position within the organization and was supposed to do Non-Linux things at Apple. This was the point, Torvalds disagreed. Moreover Torvalds did not like the Mac Kernel, Mach.
