Tango PC, the small form factor desktop rig that can fit in the palm of your hand, was already an impressive concept based on the fact that, despite its size, it'll be powered by desktop hardware while also booting to traditional desktop operating systems like Windows 7 and Windows 8. On top of that though, Tango also announced that Tango PC owners will also be able to configure their miniature desktop computer to ship with alternative operating systems like Chromium OS and Ubuntu Linux pre-installed.
