When I bought the ZaReason Strata Laptop, I asked them to pre-load Mageia 4 to it. However, I knew that I was going to add more distros to the hard drive as soon as I can, to make it feel like the pentaboot HP Pavilion that died on me.

To begin, I wiped the original install and re-installed Mageia. Then, I tried to put PCLinuxOS into the hard drive, but the distro had problems with the display. As I could not achieve a decent display, I decided to do some research and try with PCLinuxOS later.
