OpenBSD forks, prunes, fixes OpenSSL

By *Rianne Schestowitz*

Created 22/04/2014 - 6:53pm

Submitted by Rianne Schestowitz on Tuesday 22nd of April 2014 06:53:27 PM Filed under [Security](#) [1] [BSD](#) [2]

OpenSSL is the dominant SSL/TLS library on the Internet, but has suffered significant reputation damage in recent days for the Heartbleed bug. The incident has revived criticism of OpenSSL as a poorly-run project with source code that is impenetrable and documented, where it is at all documented, badly and inaccurately.
