ROSA Desktop Fresh R3 is the latest edition of the Mandriva-derived Linux distribution from ROSA Laboratories, a Linux software solutions provider based in Moscow, Russia. This is one of my favorite desktop distributions because the developers are actually creating original applications and system utilities designed to make the desktop easy and fun to use.

The KDE edition, which is the distribution's flagship edition, includes a few user-friendly features that are not available in vanilla KDE desktops. That's why it's one I never hesitate to recommend it to new and experienced users alike. The released installation images are for KDE only. Installation images for GNOME 3 and LXDE will likely be released in about a month.

Highlights of ROSA Desktop Fresh R3 are.
