Dear Commissioner Malmstroem,

we are writing to you on the occasion of the international Day Against Digital Restrictions Management, which today is being celebrated around the world. We are very concerned about the security of European citizens, and we ask you to take action to protect them.

The Free Software Foundation Europe (FSFE) is an independent charitable non-profit dedicated to promoting Free Software and freedom in the information society. Today we would like to direct your attention to a very specific threat to the freedom and security of computer users everywhere.
