We are proud to announce MythTV 0.27.1.

0.27.1 is more than your traditional point release: 0.27.1 is our best release ever. While it doesn't have major new user features, it has received over 340 improvements.

Lots have been rewritten under the hood to provide the best user experience ever. In particular, and to make the critics quiet, LiveTV has received an extreme levels of attention.
