- [MythTV 0.27.1 Has 340+ Improvements](#) [2]

- [Samba 4.1.8 Gets NetApps](#) [3]

Samba 4.1.8, an app that seamlessly integrates Linux/Unix servers and desktops into Active Directory environments using the winbind daemon, is now available for download.

- [Psensor Updated With Option To Display Temperature Sensors On The Panel \[Ubuntu 14.04 PPA\]](#)[4]

Psensor, a hardware temperature monitoring tool, was updated recently with an option to display the temperature on the panel (next to its AppIndicator icon), along with other improvements and bug fixes.
