Submitted by Roy Schestowitz on Thursday 5th of June 2014 08:48:55 PM Filed under [Software](#) [1]

- [Tails 1.1 Beta 1](#) [2]

- [tofu: Working the stack](#) [3]

- [todo.txt: Famous or infamous, you decide](#) [4]

I suppose it's not the fault of todo.txt that lifehacker.com left its greasy fingerprints on it. And perhaps I'm not being fair by immediately assuming that lifehacker.com is just glomming onto an otherwise useful script in hopes of pulling a little traffic its own way.

- [tnote: An application of note](#) [5]

- [todo.c: A task organizer with a sense of style](#) [6]
