Submitted by Roy Schestowitz on Sunday 8th of June 2014 08:05:05 PM Filed under [Software](#) [1]

- [traceroute: Where you're going and where you've been](#) [2]

The original traceroute application must be about a thousand years old by now. I can remember messing with something like it ~20 years ago on a Windows machine, and promptly tossing it aside for a graphical version that showed where the IP addresses were located on the globe. Far more interesting.

- [transmission-cli: Add this to the list](#) [3]

- [termrec, ttyrec, tty2gif and others: Pretty as a picture](#) [4]

- [tpp: Pulling it all together](#) [5]

[Software](#)
