While most of the world is turned towards Brazil to enjoy the World Cup, Mageia has been preparing its own major worldwide event: Mageia 4.1 has been released!

- [Mageia 4.1 Comes Out As A Surprise Release](#) [3]

Mageia 4.1 is out today as an unscheduled maintenance release to the Mandriva-forked Linux distribution.

- [Mageia 4.1 Officially Released with New Linux Kernel](#) [4]

Mageia 4.1, a GNU/Linux-based free operating system that started its life as a fork of Mandriva Linux and that is supported by a nonprofit organization of elected contributors, has been release and is now available for download.
