- [Acky?s Reloaded secures 15% funding, Linux version confirmed](#) [2]

If you are a retro gamer, chances are breakout holds a special place in your heart. That simple game of ping pong is perhaps the most iconic of all the games of yore. Though there have been many attempts to clone the game as well as the fun, few were successful. Acky?s Reloaded is a reimagining of Acky?s XP Breakout which was a famous breakout clone. Now, thanks to Kickstarter, the game has crossed the 15% milestone of funding, which means that it will be made available on Linux too!

- [The Vanishing of Ethan Carter Adventure Game Might Arrive on Linux ? Gallery and Video](#) [3]

The Vanishing of Ethan Carter, a superb adventure game with an almost photo-realistic engine, might be getting a Linux release.

The developers of The Vanishing of Ethan Carter from The Astronauts have been working on this game for quite some time and the results are outstanding. So far, the game has been announced on the PC and PS4 platforms, but the devs are thinking about releasing a Linux version as well.

#### [SteamOS Repositories Are Now Down](#) [7]

The SteamOS repositories and some of the other resources provided by Valve seem to have some connectivity problems and users can't perform updates.

The issues with the SteamOS repositories seem to be intermittent and there are already a number of users on the official forums complaining about this issue. So far, not many users have noticed it, but if it persists, the number of affected people might rise.
