Greg Knaddison has worked for big consulting firms, boutique software firms, startups, professional service firms, and former Drupal Security Team leader. He is currently the director of Engineering at CARD.com and a Drupal Association advisory board member.

Michael Hess works with the University of Michigan School of Information and the UM Medical Center teaching three courses on content management platforms and overseeing the functionality of hundreds of campus websites. He serves in a consulting and development role for many other university departments and is the current Drupal Security Team leader. He also consults with BlueCross on large-scale medical research projects. Hess is a graduate of the University of Michigan School of Information with a master's degree in information.
