[4]

The [document foundation](#) [5] released another update **LibreOffice 4.4.5** which contains 80+ bug fixes over the [previous release](#) [6]. LibreOffice is one of the most popular Office app that is also very active. Regular releases makes it more stable and feature-rich. According to the team **LibreOffice 4.4.5** replaces LibreOffice 4.3.7 as "still" version for more conservative users and enterprise deployment. Install this update in Ubuntu/Linux Mint or other derivatives to get bug fixes.
