The developers of the PCLinuxOS distribution announced the release of PCLinuxOS 2017.03 KDE Edition, an updated install medium that ships with all the latest KDE technologies and applications.

Powered by the long-term supported Linux 4.9.13 kernel, PCLinuxOS 2017.03 KDE Edition includes the KDE Plasma 5.8.6 LTS (Long Term Support) desktop environment, as well as the KDE Applications 16.12.2 software suite, and KDE Frameworks 5.31.0.
